STEAMPLATES produce high quality polished and enamelled name plates etc. in Brass and Aluminium from 1" x 1/2" up to 96" x 48". Reproduction steam related name and other plates can be made to FULL SCALE.

We also make other things in Wood or other materials, replacement Barge Boards for building restoration and the famous 'Jag Mate' tool shelf to name but two. Simply put, if you need something created by cutting it out flat material with utter accuracy, we might be the best option. A visit to our website will give much more information. www.steampates.co.uk
